Perfect PAVLOVA

PREP: 15 MINS

COOK: 1 ½ HOURS

SERVES: 6

Recipe by **Devondale** devondale.com.au

The seemingly simple pavlova is a difficult dish to get right, this technique will have an amazing result every single time. It's the kitchen hack of the hot water and everything in the bowl at once makes this foolproof saving time and effort.

INGREDIENTS

PAVLOVA

4 egg whites

1 ¼ cups caster sugar

1 tablespoon corn flour

1 teaspoon vinegar

½ teaspoon vanilla

1 tablespoon hot water

TOPPING

300ml Devondale All Rounder

Thickened Cream, whipped

Blueberries, mango slices and
passion fruit to decorate

METHOD

PAVLOVA

1. Preheat oven to 140°C or 120°C fan-forced
2. Put all ingredients into a stand mixer, adding hot water last
3. Whisk for ten minutes on high speed (Mixture should look shiny and hold stiff peaks)
4. Line a large flat baking tray with baking paper and spoon meringue into centre of tray. Shape like nest using the back of your spoon (20cm round)
5. Bake 1.5 hours on the middle shelf and allow to cool in oven. It should be crunchy on the outside and like marshmallow on the inside

TOPPING

1. Top the pavlova with lightly whipped Devondale 'All Rounder' Thickened Cream
2. Add fresh fruits of the season

TIPS & HINTS

You can use tined mango and passionfruit pulp if fruits are not in season.

Pear & Chocolate

BREAD & BUTTER PUDDING

PREP: 15 MINS

COOK: 1 HOUR

SERVES: 6

Recipe by **Devondale** devondale.com.au

Everyone loves bread and butter pudding. This cheat's version uses a fuss free custard and store bought fruit loaf for maximum taste without the long list of ingredients.

INGREDIENTS

6 eggs
.....
120g icing sugar, sifted
.....
300ml Devondale All Rounder Cream
.....
300ml Devondale Long Life Full Cream Milk
.....
½ tsp vanilla essence
.....
½ tsp mixed spice
.....
4 slices cafe-style fruit loaf
.....
Devondale Dairy Soft Unsalted Butter (for spreading on bread)
.....
1 pear, peeled and cored, finely sliced
.....
80g dark cooking chocolate, chopped
.....
2 tsp raw sugar (added just before baking)
.....
Icing sugar (to serve)
.....
Devondale All Rounder Cream (extra for serving)
.....

METHOD

1. Preheat oven to 160°C. Lightly grease a 20x15cm baking dish
2. Place the eggs, icing sugar, cream, milk, vanilla and mixed spice in a large bowl and whisk together until well combined
3. Butter the fruit loaf slices and cut into quarters
4. Arrange bread pieces into the baking dish butter side up and then pour over the custard mixture. Make sure not to put bread too close together so you get lovely pockets of custard once cooked
5. Arrange the pear slices in between the bread and then scatter with the chocolate. Sprinkle with raw sugar
6. Place the baking dish in a large roasting pan and pour enough boiling water into the pan to come halfway up the sides of the baking dish, creating a water bath
7. Place pudding in the oven and bake for 60 minutes or until custard is just set. If the pudding begins to brown too quickly, cover with foil halfway through cooking
8. Serve dusted with icing sugar. Drizzle with Devondale All Rounder Cream

Magic Beesting

CUSTARD CAKE

PREP: 20 MINS

COOK: 1 HOUR 15 MINS

SERVES: 8-10

Recipe by **The Dairy Kitchen** legendairy.com.au

This impressive cake is absolutely magic, one thin milky batter separates into three unique textures in the oven, a firmer thick batter at the bottom, creamy custard in the centre and a spongy cake topping. Sounds impossible? You'll just have to try it! Serve this cake with fresh berries or citrus.

INGREDIENTS

CAKE

- 4 eggs, separated
- 1 ¼ cups caster sugar
- 2 teaspoons vanilla extract
- 1 tablespoon water
- 125 g butter, melted
- ¾ cup plain flour
- 2 cups (500 ml) full cream milk, lukewarm

HONEY SYRUP

- ⅓ cup sugar
- ⅓ cup water
- 2 tablespoons honey
- ½ cup flaked almonds, toasted

METHOD

CAKE

1. Preheat an oven to 160°C (140°C fan forced). Line the base and sides of a 20cm round cake pan
2. In a clean mixing bowl, beat egg whites with an electric mixer until firm peaks form. Set aside
3. In a separate bowl, beat the egg yolks, sugar, vanilla and water with an electric mixer over high speed for 5 minutes or until mixture is light and fluffy. Gradually add in the butter until mixed through
4. Reduce mixer speed to low, add flour and mix in until just combined. Gradually beat in the lukewarm milk until incorporated. Gently fold in beaten egg whites with a large metal spoon
5. Pour mixture into pan and bake for 1 hour 10 minutes or until the top is golden, and the centre is slightly wobbly. Cool in the pan until completely cold

HONEY SYRUP

1. Combine sugar, water and honey in a small saucepan. Stir over medium heat until sugar has dissolved. Bring to the boil, reduce heat and simmer for 15-20 minutes or until thickened into a syrup. Allow to cool to room temperature
2. Sprinkle almonds over cake and drizzle with syrup, then serve

TIPS & HINTS

When adding beaten egg whites to batter, begin by stirring one spoonful of the beaten egg white into the mix. It will lighten the batter and make it more accepting of the remaining egg white when you gently fold it in.

Frozen LEMON MERINGUE

PREP: 30 MINS

Recipe by **Monday Morning Cooking Club** mondaymorningcookingclub.com.au

"This delicious frozen lemon meringue is my all time go to gluten free recipe, which I like to change sometimes by experimenting with different toppings and flavours. Once made, it is stored in the freezer and then taken out approximately 20 minutes before serving." Vivienne Polak

2 teaspoons cornflour (cornstarch)

225g (8 oz) caster (superfine) sugar

LEMON CUSTARD

Frozen LEMON MERINGUE

METHOD

MERINGUE DISCS

1. Start this recipe the day before serving. Preheat the oven to 150°C (300°F/Gas 2)
2. Line two baking trays with baking paper which have been marked with three 20cm (8 inch) diameter circles or 28 x 12cm (11 x 4 inch) rectangles
3. To make the meringue discs, sprinkle the egg whites with the cream of tartar and whisk until stiff. Mix the cornflour with the sugar, then add to the egg whites, 1 tablespoon at a time, whisking well after each addition
4. Whisk for a few more minutes until thick and glossy. Using a spatula, spread the meringue inside the marked outlines, smoothing out to the edges
5. Place in the oven, reduce the temperature to 140°C (275°F/Gas 1) and bake for 1 hour, or until the meringue discs are crisp to touch and will lift off the paper easily. Place on a wire rack to cool completely
4. Remove from the heat and stir for another minute. Pour into a bowl and refrigerate until completely cold, or place over a bowl of ice to cool faster
5. In a separate bowl, whip the cream until firm, then gently fold it into the cooled lemon custard one spoon at a time, until combined. Refrigerate until needed
6. Set aside the best meringue disc to be the top. To assemble, place one meringue disc on a piece of baking paper and top it with half of the lemon custard.
7. Do not spread the custard all the way to the edge; when you place the next disc on top, it will spread
8. Repeat with another layer of meringue and the remaining filling, then top with the final meringue layer. Wrap gently in foil then freeze for several hours or overnight. This can be done several days ahead

LEMON CUSTARD

1. Start making the lemon custard as soon as the meringues go in the oven, as it must be quite cold before the cream is folded in
2. Put the egg yolks and sugar in a heavy-based saucepan over a low heat, mix until smooth and well combined, then add the lemon juice and zest
3. Continue to stir constantly until the mixture thickens and coats the back of a spoon, about 10-15 minutes
1. To make the lemon syrup, combine all the syrup ingredients in a small saucepan, stirring over low heat until the sugar dissolves
2. Simmer, without stirring, for about 5 minutes, or until slightly thickened and tacky. Allow to cool to room temperature
3. Remove the lemon meringue from the freezer 30 minutes before serving. Drizzle the lemon syrup over the top

Baked Vanilla & Ricotta Tart

WITH STAR ANISE CITRUS

PREP: 25 MINS

COOK: 40 MINS + COOLING

SERVES: 12

Recipe by **The Dairy Kitchen** legendairy.com.au

INGREDIENTS

600g wedge ricotta cheese

½ cup reduced fat vanilla yoghurt

3 eggs, lightly beaten

¼ cup caster sugar

2 teaspoons vanilla

600g citrus fruit eg oranges, ruby grapefruit, mandarins

1 star anise

¾ cup reduced fat vanilla yoghurt, extra

Mint leaves, to decorate

METHOD

1. In a food processor, combine ricotta, yoghurt, eggs, sugar and vanilla until very smooth and creamy. Pour into a baking paper lined 23-24cm spring form pan
2. Bake at 150°C for 30 minutes or until just firm, turn off oven and allow cake to cool in the oven for 1 hour, stand at room temperature for ½ hour and then refrigerate until cold
3. Peel and segment the citrus fruits over a bowl to collect the juice, then squeeze any remaining juice out of the leftover membrane etc
4. Place the juice and star anise in a small saucepan and boil until slightly reduced and thickened. Pour the hot syrup over the segments and chill until required
5. Remove the cheesecake from the pan and place on a serving platter, top with fruit, syrup and mint leaves. Serve slices of the tart with extra yoghurt dolloped on the side

TIPS & HINTS

To segment citrus fruit, first peel the fruit removing any pith. Slide a small paring knife between each segment and the connective membrane, until you hit the middle of the fruit, turn the knife around on itself, hooking around the bottom of the segment and slip the knife up the otherside of the segment to remove.

Ultimate Whipped CREAM

For perfect whipped cream every time, it must be very cold. If you've just brought it home from an extended trip to the store, refrigerate the cream for a while beforehand. Cream that isn't cold enough may not whip at all, or it may curdle. Use a bowl just wide enough for the beater. Chill the bowl and the beaters before adding the cream. Whip only 1 cup (300ml) at a time.

To help whipped cream stay fluffy in the refrigerator or on a cake, add one sifted tablespoon of Devondale Skim Milk Powder for each cup of cream. If you add sugar for sweetness, do so after whipping the cream - never before.

INGREDIENTS

300ml Devondale All Rounder
Thickened Cream
.....
1 tablespoon Devondale
Skim Milk Powder
.....
1 tablespoon icing sugar
.....

METHOD

1. Chill beaters, bowl and cream.
2. Whip 300ml Devondale All Rounder Cream until almost at the consistency you desire.
3. For stiff whipped cream add 1 tablespoon Devondale skim milk powder.
4. For sweetness add 1 tablespoon icing sugar.
5. Whip until just combined.

Almond KIFLI

PREP: 20 MINS

COOK: 30-40 MINS

MAKES: 60 BISCUITS

Recipe by **Monday Morning Cooking Club** mondaymorningcookingclub.com.au

"This kifli (loosely meaning 'biscuit') recipe came from Kati, who was given the recipe by her mother's mother in (the former) Yugoslavia. She has now passed them on to me and my children. The almond kifli are a delightfully buttery, nutty and crumbly biscuit." Sharon Vidor

INGREDIENTS

125g whole raw almonds (skin on),
freshly ground (in a food processor)
.....
250g unsalted butter, at room
temperature
.....
350g (2 $\frac{1}{3}$ cups) plain (all purpose)
flour
.....
1 tbsp vanilla (caster) sugar (see
note)
.....
About 160g (1 cup) icing
(confectioners) sugar
.....
 $\frac{1}{2}$ tsp Heilala ground vanilla powder
.....

METHOD

1. Preheat the oven to 160°C. Line two large baking trays
2. Mix together the ground almonds, butter, flour and vanilla caster sugar by hand until a dough is formed, taking care not to overwork the dough. This can also be done in a food processor
3. Roll the dough into small thumb-sized rolls and bend slightly into crescent shapes. Place on the prepared trays and bake for 30-40 minutes until pale golden
4. Make the vanilla icing sugar by sifting together the icing sugar and ground vanilla powder.
5. When cool, roll in the vanilla icing sugar. Store in an airtight container with any excess vanilla icing sugar tipped on top of the biscuits

TIPS & HINTS

To make vanilla (caster) sugar, store a split vanilla bean (it can be one from which the seeds have been removed for another dish) in 1kg caster sugar in a container. Shake vigorously and allow the vanilla flavour to permeate for at least 1 week before using. Seal the container until ready to use. Lasts for months.

Chocolate Yeast **KUGELHOPF**

METHOD

DOUGH

1. You will need a large angel (chiffon) cake tin with a removable base. Carefully line the side, base and funnel with baking paper
2. Gently warm $\frac{1}{4}$ cup of the milk. Sprinkle with the yeast and 1 teaspoon of the sugar. Allow to stand for 5 minutes to allow it to froth. Add 3 teaspoons of the flour and stir. Allow to stand for 15-20 minutes, or until frothy and thick
3. Mix the remaining flour and sugar together with the salt in the bowl of an electric mixer
4. Warm the remaining milk and melt the butter
5. Beat the eggs with the vanilla. Add these and the yeast mixture to the flour mixture and knead with the dough hook for 10 minutes
6. You may need to add extra flour but do so a spoon at a time, kneading after each addition. You will have a very sticky dough that just comes away from the side of the bowl
7. Put the dough into an oiled bowl, cover with plastic wrap and a tea towel (dish towel). Put the bowl in a warm place and allow to rise until doubled in size. This will take at least 2 hours

FILLING

1. Once the dough has risen, make the filling. Place the filling ingredients in a large heatproof bowl over a saucepan of simmering water (or use a double boiler) and melt, stirring until smooth
2. Cut the dough in half. Roll out to form a large rectangle (30 x 45cm/12 x 17. inches) and carefully spread half the filling mixture on the surface from edge to edge.
3. Roll up the dough to make a large snake and place it into the prepared tin, curling around the funnel, seam side up. Repeat with the other half of the dough. Place it on top of the first roll, seam side down
4. Cover with plastic wrap and a tea towel and allow to rise in a warm place until at least doubled in size, about 1 hour. It will rise almost to the edge of the tin. Brush gently with the egg wash and sprinkle with the extra sugar
5. Preheat the oven to 170°C (325°F/Gas 3)
6. Bake the Kugelhoppf for 40 minutes, or until well risen and golden brown on top. If not eating immediately, allow to cool out of the tin but with the baking paper still attached
7. Best eaten on the day of baking or reheated the next day. Freezes well for up to 3 months

Vanilla Custard SLICE

PREP: 20 MINS

COOK: 40 MINS + COOLING

SERVES: 8-10

Recipe by **Margaret Gledhill** for **Devondale** devondale.com.au

INGREDIENTS

CUSTARD SLICE

- 2 sheets puff pastry
- 1L Devondale Long Life Full Cream Milk
- 60g Devondale Unsalted Butter
- 1 egg (whisked together with the vanilla essence)
- $\frac{3}{4}$ cup sugar
- $\frac{1}{2}$ cup cornflour
- 4 tbsp custard powder
- 2 tsp vanilla essence
- 150ml Devondale Milk (extra)

ICING

- 2 cups sifted icing sugar
- 40g softened Devondale Unsalted Butter
- 1 tsp vanilla essence
- 1-2 tbsp hot water

METHOD

CUSTARD SLICE

1. Preheat your oven to 180°C
2. On a biscuit tray, place pastry between 2 sheets of greaseproof paper and place another biscuit tray on top to keep the pastry from rising. Bake the pastry sheets in a moderate oven for 15-20 minutes or until golden brown
3. In a large saucepan, warm the milk, butter and sugar over a medium heat until the butter is melted. Blend the cornflour and custard powder in extra milk until smooth and pour into the saucepan
4. Turn the heat to high and bring the custard to a boil, stirring continuously to ensure no lumps form
5. When the custard is thick and smooth, remove the saucepan from the heat and stir in the egg and vanilla
6. Line the base of a 23cm square cake tin and place one sheet of the pastry on the base. While the custard is still hot, pour over the base
7. Place the other sheet of pastry on top of the custard, pressing down firmly. Set aside to cool slightly. Refrigerate until the custard is firm

ICING

1. Combine sifted icing sugar with softened butter, vanilla essence and 1-2 tbsp hot water in a bowl. Mix well until it forms a spreadable consistency

Golden Drop DONUTS

 **PREP: 20 MINS**  **COOK: 25 MINS**  **MAKES: 35 DONUTS**

Recipe by **KitchenAid** kitchenaid.com.au

*Best eaten just after frying. A delicious dessert or indulgent snack.
This recipe uses the **KitchenAid® Artisan Diamond Blender**.*

INGREDIENTS

2 ¼ cups (340g) plain flour
½ cup (110g) castor sugar
3 teaspoons baking powder
Pinch salt
4 eggs
¾ cup (165ml) buttermilk
3 teaspoons vanilla paste or extract
3L vegetable oil for frying
200mls honey, lightly warmed (optional)

FOR THE SPICE COATING

¾ cup (110g) caster sugar
1 teaspoon ground cinnamon
½ teaspoon ground cardamon
¼ teaspoon ground nutmeg

METHOD

1. For best results use the **KitchenAid® Artisan Diamond Blender**
2. Place the flour, sugar, baking powder and salt into the glass jar of the blender. Cover and select the tab for blending
3. Process 5 seconds or until well mixed. Remove from the jar
4. Add the eggs, milk and vanilla to the jar, cover and pulse on shaking. Return the flour mixture, cover and process until thoroughly mixed
5. Transfer the mixture to a firm freezer bag/large sandwich storage bag or cake decorating piping bag - pushing it into one corner
6. Heat the oil in a large pot to 180°C. Trim one corner of the bag and push smallish, 1 tablespoon amounts of the mixture into the oil, snipping off the mixture using scissors
7. Cook about 5 at a time for around 2-3 minutes, gently tossing the donuts in the hot oil until a deep golden colour and cooked through
8. Remove with a slotted spoon and lightly drain before tossing in the spice mixture. Serve drizzled with the honey, if desired
9. For the spice mixture, combine and place on a flat plate

TIPS & HINTS

If the oil is too hot the donuts will not cook through to the centre. Donuts are best eaten soon after cooking.

Gluten free option: replace plain flour with gluten free plain flour, adding 2 teaspoons gluten free gluten (GFG) available from health food stores.
